I really like the concept and the service. The location if prime for those coming in before work. It's also out of the way enough for me to get away from the hustle of my daily adventures. The Wi-Fi connection is awesome!

It's good to know that Coffeenet is just around the corner as I'm out and about. While you grab the best cup of coffee you've ever tasted, you can also access the internet on their PCs. You just can't beat that!

Love The Place

They make you feel like you're at home!

I recently organized a small gathering of friends for an afternoon of games and fun. The service was awesome, with a very friendly touch. We mingled up front with warm beverages and desserts for awhile. Then, we gathered in the meeting room for music and games. The whole place was very clean, relaxing, reasonable, and fun!

As a former resident of Atlanta, I visit the city a lot. When I'm in town, I always swing by CoffeeNet for at least a quick beverage.

Pros: Clean, Friendly, Reasonable

Great Place for Meetings!

I regularly crave a CoffeeNet vanilla bean latte - and I don't even usually drink coffee! I also love to follow up the latte with the mixed berry smoothie. Great location, right off of I-285 and has free internet access. Prices are also very reasonable.

My book club also recently met in the CoffeeNet's Meeting Room and it was great. I think it would be good for other groups meeting too and maybe smaller parties/gatherings.

Coffeenet

I live down the street from here, so this is one of my hangouts - I love the fruit smoothies (strawberry banana, with yogurt and whipped cream). Coffee-net is not tragically hip or particularly trendy, but comfortable. The staff is friendly and more than willing to spend a couple minutes chatting about the pastries or beverages as you decide what you want. It's a good place for a casual date or perhaps to finish up a date over a cup of coffee. It's also a good place to surf the net and check your email. I have had a drink or two there that I didn't particularly care for, but the manager is always eager to replace it with something I do like.

Pros: variety of drinks, red velvet cake, muffins

Not much to say....

I am reading the reviews for this place and keep thinking.... Is this the same place I went too?!?!?! Upscale? Try seating from churchs chicken. Reasonable -- this place is the same price as starbucks.... and no where as good. I think these

ratings are untrue and owner written. Oh and by the way... it is not a date spot or a restaurant.

This place is a good place to work, socialize and have some good espresso. Great desserts. Nice services like color copying, printing, etc. Cheaper than kinkos and nicer too.

Pros: Great Smoothies, Free internet

Cozy! Comfortable! Classy! CoffeeNet is the place to stop off and take a quick break from your hectic day. Enjoy a Hot Chocolate w/Soy Milk and Whipped Cream [if you don't mind the contradiction :)] with any one of their delicious cookies. Free Internet combined with various copy, fax, and other business related computer programs gives you no excuse not to get caught up w/ work. Conveniently located to the intersate you will still make it to all of your appointments on time!

Pros: Conveniently Located, Politely Professional, Free Internet

What an awesome concept, -its like an upscale Starbucks with a mini- KINKOS all wrapped up in one. The service is great and the staff is friendly and efficient. So whether you are in the mood for a latte or you have a small business and are in search for a quick meeting spot- CoffeeNet is #1!

And don't forget to try the italian creme cake- its delicious....

Pros: Free Internet, Free Wi-Fi, Great desserts
